“.....The parts have just arrived. They are absolutely fantastic, please pass on my thanks to whoever made them – a very neat and accurate job.....” *customer email - June 2010*

BASS ENGINEERING GAINS ISO 9001 ACCREDITATION

Bass Engineering are staying at the forefront of the industry and further improving their reputation for excellence by gaining ISO 9001 accreditation.

The need for Bass to gain ISO 9001 was highlighted by the team in order to achieve the following:

- to confirm their thorough and robust procedures.
- to maintain the highest levels of quality and customer satisfaction possible.
- to enable them to move forward with existing customers requirements.
- to help develop our customer base further

With comprehensive documentation and inspection procedures already in place, Caroline Ireland who was designated as the ISO 9001 co-ordinator, had a relatively straightforward task in completing the

certification process and Bass Engineering was awarded full accreditation in June 2010.
